## INFO

I am an international volunteer engaged in European projects, with multidisciplinary experience developed in diverse and international environments. Driven by the ambition to make technology and innovation more accessible, I am involved in initiatives that build bridges between technical skills, social challenges and European citizenship. Through international mobility and civic engagement, I seek to inspire young people to take part in meaningful and impactful projects.

## EDUCATION

- **Engineer in Embedded Electrical and Electronic Systems** 2024  
CESI School of Engineering - Labège, FRANCE
- **Physical Measurement Technical Degree** 2021  
University Paul Sabatier - Toulouse, FRANCE
